

HOLLY GORDON CV

WHO IS SHE?

I am a hybrid creative with over five years of experience and a background in graphic design.

At the core of it, the ideas are what I enjoy the most. I have worked on a variety of brands that have allowed me to art direct, copywrite and design. My work has given me the opportunity to write for radio, launch brands across social platforms, direct content series and even protest for change.

Due to my graphic design background, my strengths lean towards art direction but over the years I have worked hard to develop my skills in writing.

When I am not working, I play football for Mischief FC and continue to make my way through my restaurant spreadsheet (access on demand).
